

Converting to Lightning experience is within your reach – we can help!

A large number of companies are interested in Salesforce’s new modern user interface, Lightning – but hesitant to make the transition. It may be that you’re already comfortable with the Classic experience and don’t want to “rock the boat” for your current users. Our team can assist with all levels of the conversion effort – walking you and your team through the UI, highlighting the exciting Lightning-specific features, and creating easy-to-understand guides that outline your specific use cases. Once your team sees the potential that Lightning has to offer, the only thing you’ll be wondering is why you didn’t switch sooner! Contact us now to get an initial Lightning Readiness check assessment.
