

# Need to quickly and securely import, export or delete unlimited amounts of data? We have your solution.

Whether you're looking to import a large amount of data into Salesforce, export from Salesforce or simply delete a large quantity of data, we have the solutions that can ensure the process is quick and secure. There are data loading tools available to our consultants that can utilize intelligent data-mapping, keyboard shortcuts and search filters, to ensure your data is sent to its intended destination. We can also export related objects through a single pull, which eliminates the manual work required to pull multiple datasets in Excel. The data can be imported & exported from such repositories as Dropbox with ease! We can also set your import or export on a schedule, when you need the data updated on a weekly or monthly basis. For more information on this & other great ways to personalize your Salesforce, reach out to us at [www.highfillservices.com/contact.html](http://www.highfillservices.com/contact.html)
